

New WATER Ways

Water Sensitive Cities Speaker Series

Victorian Stormwater Action Program: Lessons and Opportunities

Chris Chesterfield

12:00-1:30pm
Friday 12th March
Atrium theatrette – Level 4
168 St Georges Tce Perth

Chris Chesterfield has played a significant role in the management of Victoria's waterways and is a widely recognised champion of sustainable water management and water sensitive urban design.

He is currently General Manager of the Waterways Group at Melbourne Water which manages water quality, floodplains and waterways across the Port Phillip and Westernport region covering an area of 13,000 km² and a population of nearly four million people.
